10. ([redacted]) Met with Senator Milton Young (R., N. Dak.) whom I briefed on recent developments concerning Soviet ICBM deployment, submarine activity, and a [redacted] ChiCom nuclear developments; and recent events in Pakistan and Ceylon.

Senator Young confided that Senator Ellender had created certain problems in running the Appropriations Committee by trying to do everything himself and not taking advantage of his staff support. Senator Young added that Ellender had been giving the Defense Department a "hard time" and was determined to cut its personnel strength, particularly in NSA. Young said he shared Ellender's views in this regard. Young said Ellender had also been critical of the Defense Department's attitude toward the Soviets. In contrast, he said Ellender seemed to have no particular quarrel with CIA and indeed, said Young, CIA's stock in the Senate is as high as it had ever been.

I refreshed Young's recollection regarding the facts in the Green Beret case, assuring him that, contrary to the allegations of [redacted] the Agency at no time had in any way suggested that Chuyen be physically eliminated.

They showed me a letter to Chairman Hebert from Representative Charles Bennett inquiring about the Agency's role in the Chuyen case. I reiterated to Blandford and Slatinshek that we had no knowledge or responsibility regarding the way the Green Berets disposed of Chuyen, and recalled for them Secretary Resor's statement at the time which made clear that this was an Army matter. Blandford said this was fine, but if some disgruntled Agency employee someday shows up claiming that we actually gave the Green Berets the go ahead on the q.t. we would all be in the soup.
